

## DOOR ENTRY SYSTEM

### Multi-User Gateway:

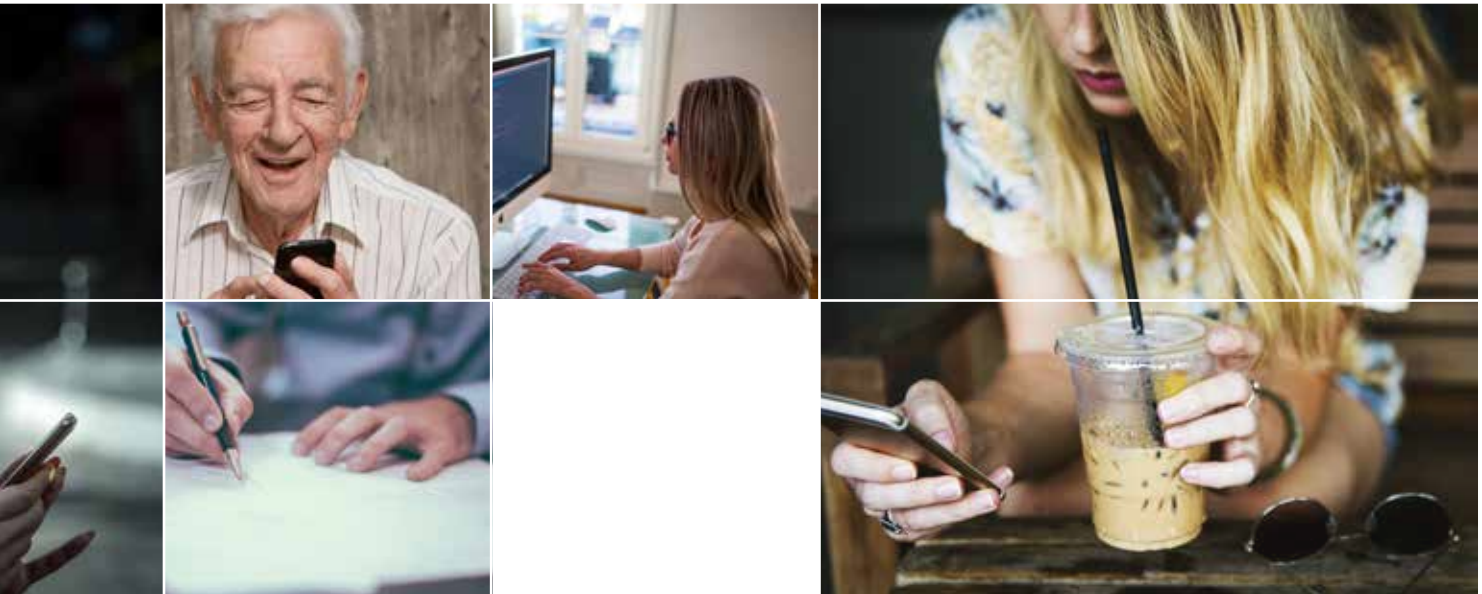

Communicate with visitors at your door if you are home, or across the world

 **Comelit**<sup>®</sup>  
Passion. Technology. Design.

# ANSWER WHEREVER YOU ARE

BE ABLE TO ANSWER YOUR DOOR CALLS WHEREVER YOU ARE EASILY FROM YOUR SMARTPHONE.

The **Multi-User Gateway** is a revolutionary door entry solution which will change the way you think of Multi-tenant door entry access. It is time to finally **step forward** from antiquated telephone only door entry systems and be able to **answer calls from** the main door on **your smartphone** or tablet with full video communication with our **ComelitApp**.

# Comelit App

The Comelit App allows your video entry systems to be managed remotely by smartphones and/or tablets connected to mobile networks or wifi outside of your building.

It is possible to respond to calls from the entry station, make intercom calls, view recorded videos of the entry station and control the opening of gates and doors.

The Comelit App is available free of charge for iOS and Android devices.

## ANSWER CALLS FROM EXTERNAL UNITS

You can answer audio or audio / video calls from a smartphone or tablet locally (Wi-Fi network) or remotely (with 3G/4G LTE)

## VIEW AND MANAGE CAMERAS

You can view (live) CCTV cameras and images from the entrance panels

## SAVE YOUR BATTERY AND YOUR DATA

Comelit App activates itself only when you receive a call, showing a push notification, saving your mobile data and battery

## MAKE AND RECEIVE CALLS FROM OTHER INTERNAL UNITS (IN THE CONTACTS LIST) AND FROM OTHER DEVICES

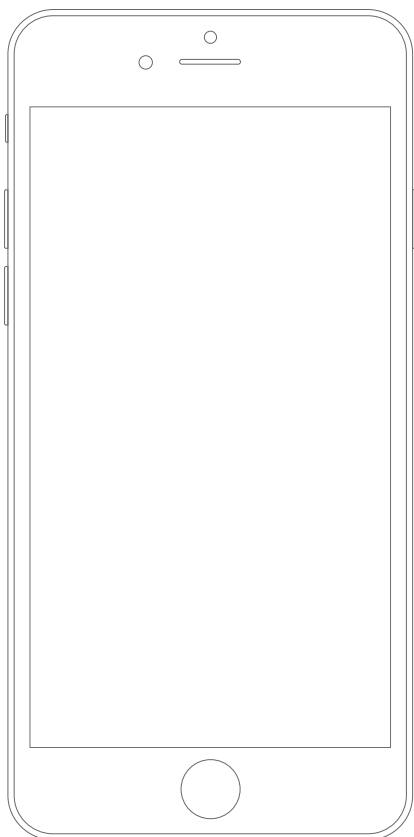

You can make or answer audio intercom calls from a smartphone or tablet with data to other ViP devices set up in the system (internal units or devices with the Comelit App).

## VIDEO MEMORY

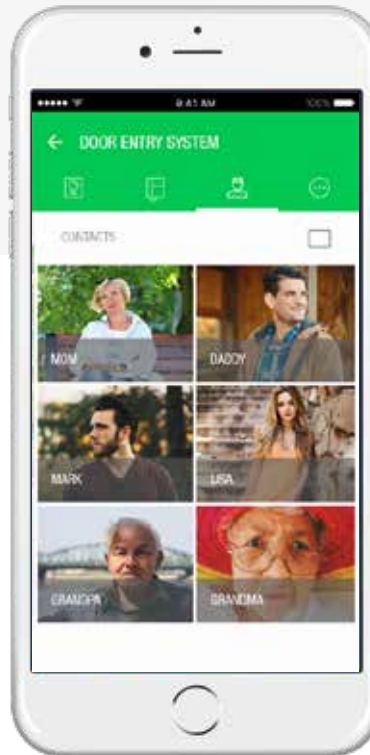

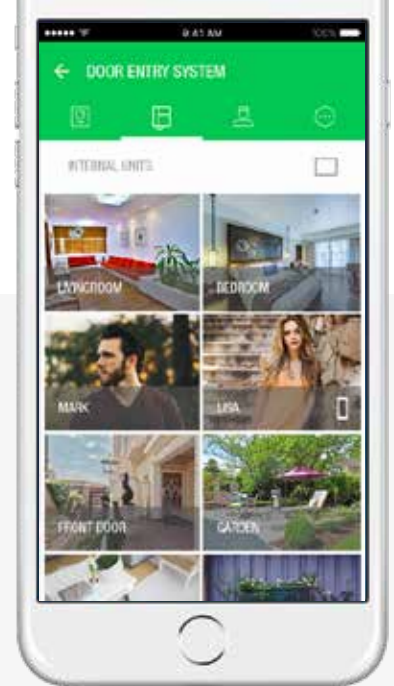

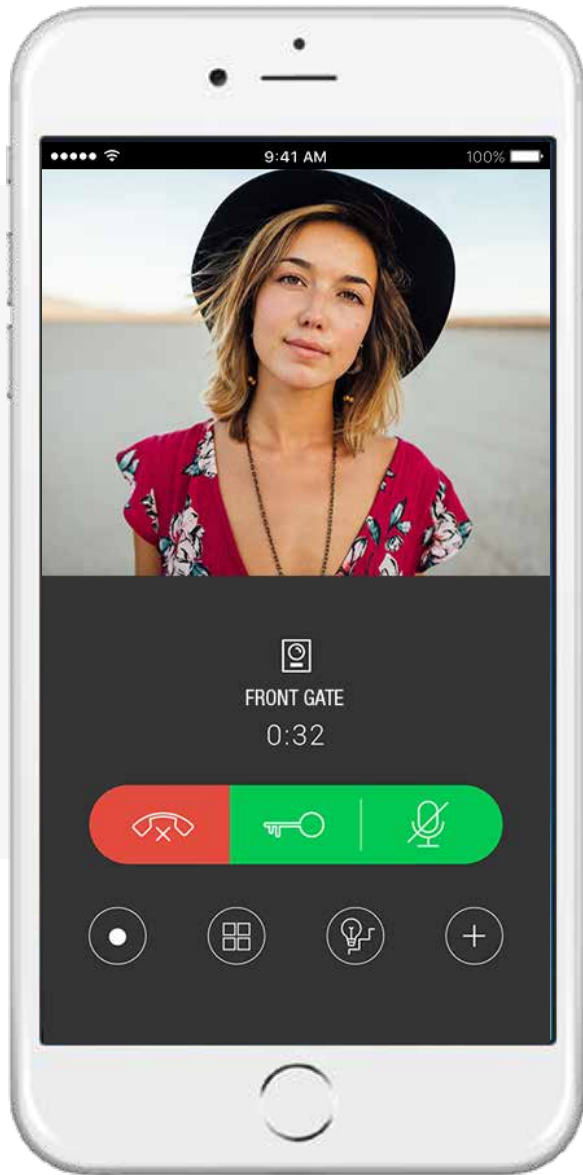

The new Video Memory function views videos recorded from external units and CCTV cameras (up to 10 seconds)

## ACTUATOR (RELAY) ACTIVATION AND MANAGEMENT

This function is used to control actuators to manage lights, gates, barriers, etc.

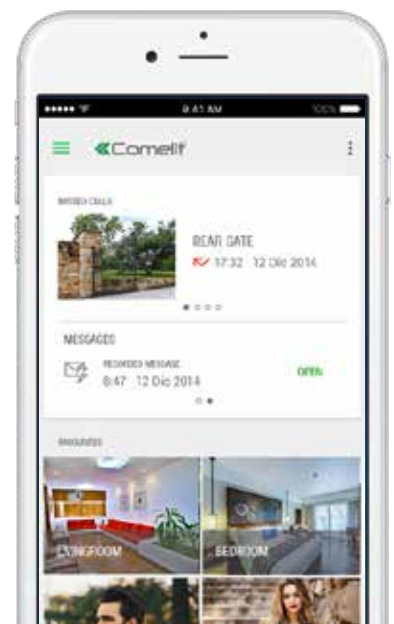

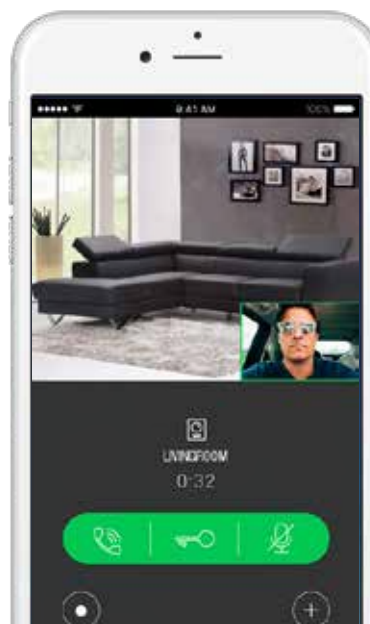

- Clean design and reliability
- Continuously updated with new functions such as home and burglar alarm management
- Push notifications to save battery and data
- Contact list with every connected device
- Contact list with every member of your family and your building via phone
- Possibility to activate monitors from remote
- Video registration from your doorbell and monitors
- Voicemail
- ...and much more

The APP can be downloaded free of charge from the App Store or Google Play

# 3 WAYS TO ANSWER

FROM SMARTPHONE / TABLET

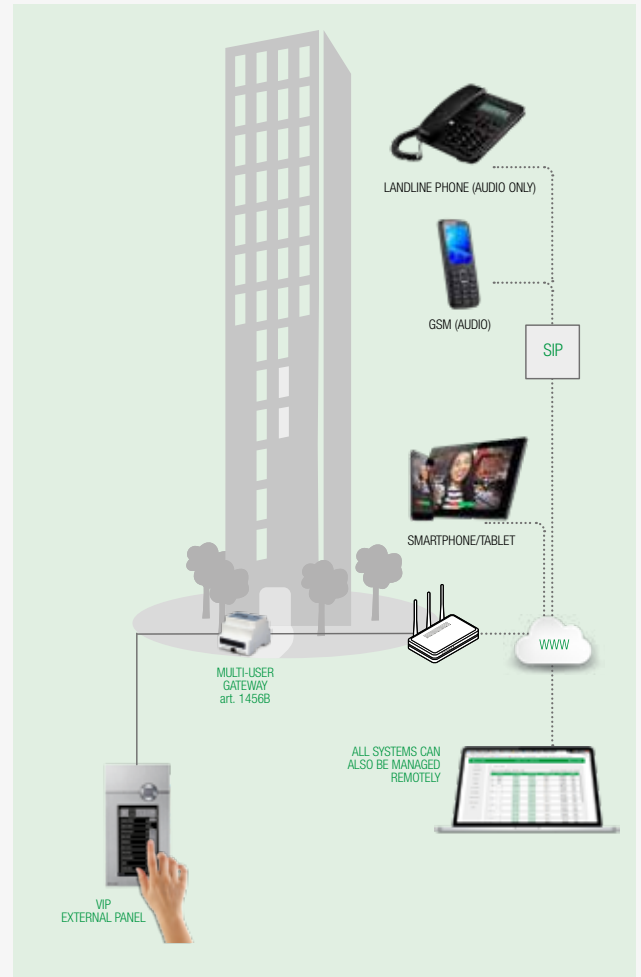

FROM INTERNAL VIDEO UNIT

FROM A LANDLINE OR GSM PHONE

## MASTER LICENSE

MOBILE APP WITH AUDIO AND VIDEO

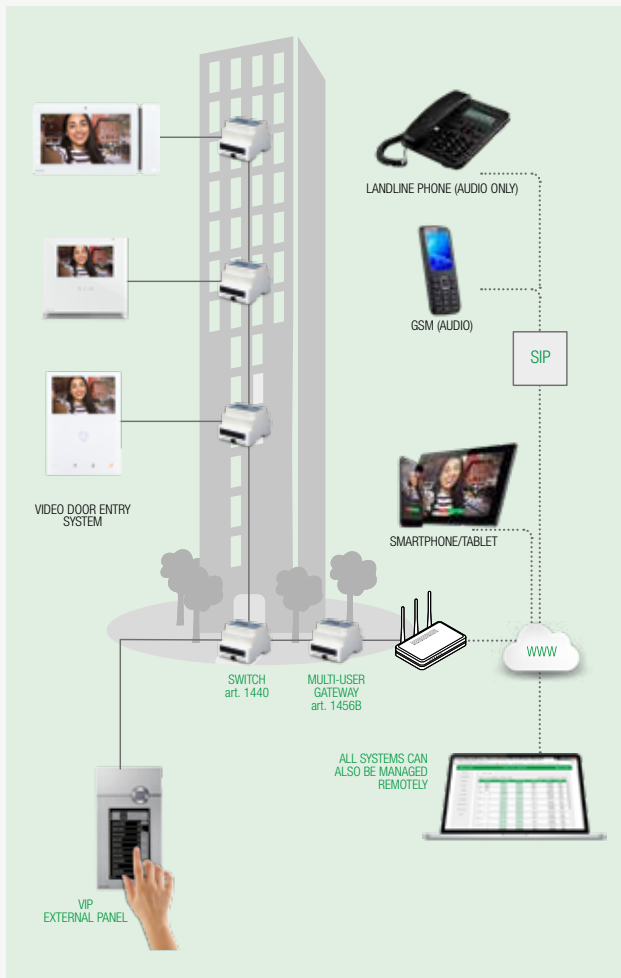

- + Remote video answer through Smartphone or Tablet
- + Available with perpetual license or with subscription license
- + Audio communication to a landline or mobile phone
- + Phone call backup in case of no data-coverage
- + Up to 15 devices for each license (smartphones, tablets, mobile phones, landline phones)

# 3 TYPES OF LICENSES

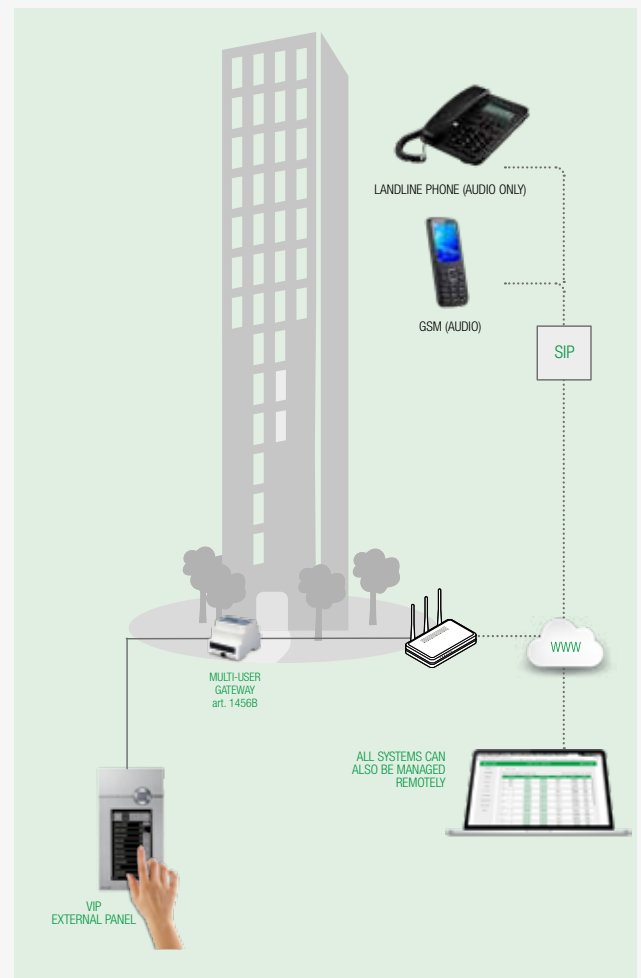

## SLAVE LICENSE

PHYSICAL MONITOR + MOBILE APP

## PHONE LICENSE

AUDIO ONLY CALL

- + Answer on a physical monitor in your apartment or on a mobile app remotely
- + **Available only with perpetual license**
- + Audio answer on landline or mobile phone
- + Phone backup in case of no data-coverage
- + Up to 15 devices for each license (intercom monitors, smartphones, tablets, mobile phones, landline phones)

- + Audio only communication to a landline or a mobile phone with audio only
- + **Available only with perpetual license**

- + Able to release the door lock

# MULTI USER GATEWAY COMES IN 2 DIFFERENT STYLES OF LICENSE DURATIONS

CLASSIC PERPETUAL-LIFETIME LICENSES (MASTER, SLAVE OR PHONE)

You buy it, you get it, you keep it, forever. Simple as that.

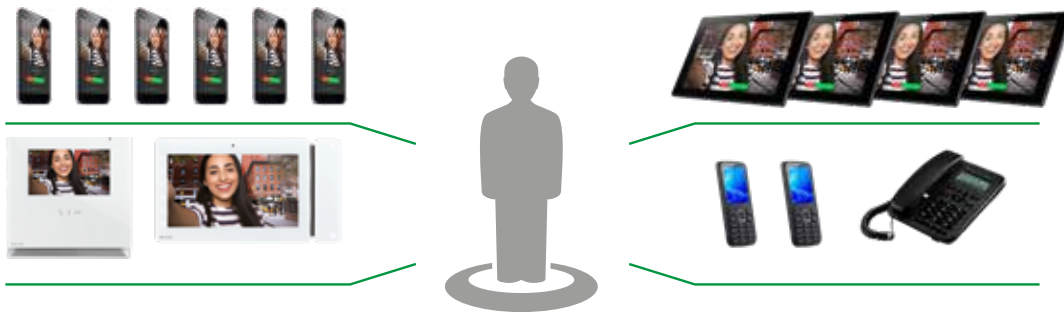

**NEW** SUBSCRIPTION LICENSES (MASTER)

Lower initial cost, reasonable yearly subscription fee per tenant.

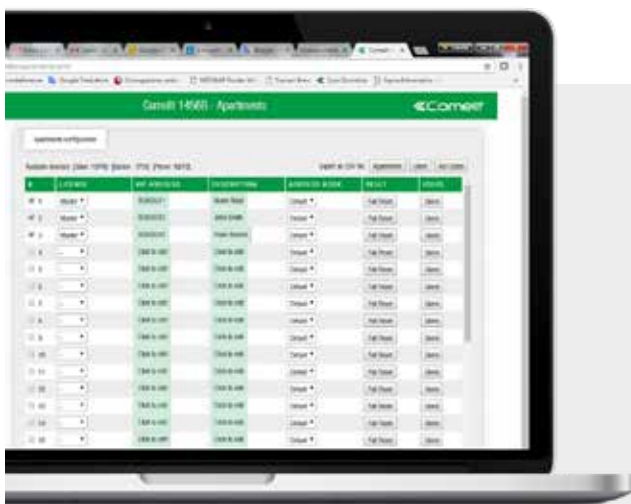

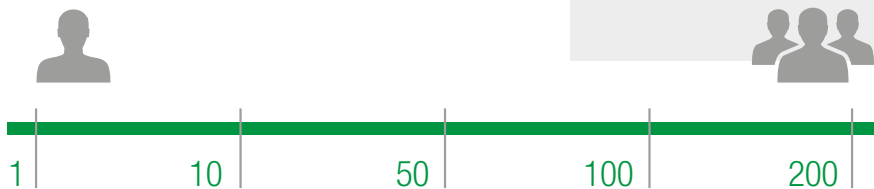

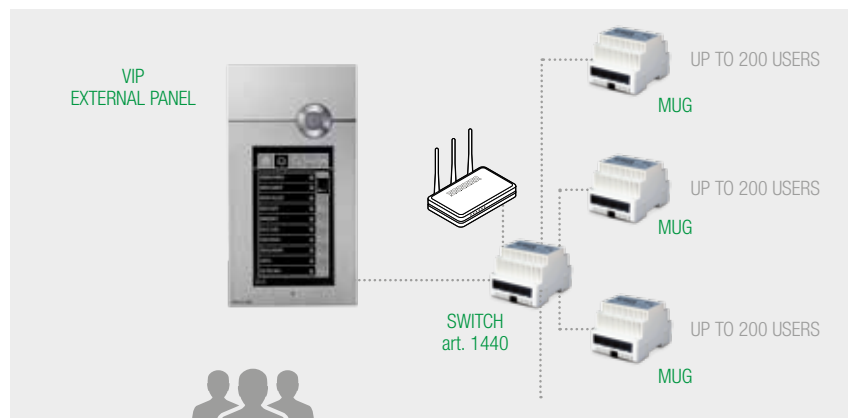

# EVERY LICENSE ALLOWS A SINGLE USER TO ADD UP TO 15 DEVICES

## SCALABILITY

Each Multi User Gateway can manage up to 200 users. If more users are needed, it is possible to add additional MUGs without limit, even afterwards.

## FLEXIBILITY

It is possible to set different configurations for individual users or groups of users remotely.

Also the property manager can change the contact list directly from the web page, remotely as well.
